## COMPETITIONS TERRAINS:

### Sprint:

Competition takes place in Kuressaare town central area with an irregular street network, narrow passages, different courtyards and open areas. The town has plenty of stone walls to make the orienteering more technical.

### Night:

The area has mostly three different types of terrain - the detailed micro-relief formed by sand, longitudinal stripes of spring-marshes and a semi-open seaside. There are two streams crossing the terrain and making some lovely variations to it. The runnability is mostly very good with some thicker areas near the marshes. Occasionally juniper bushes form dense thickets. Marshes are usually dry in august. There is moderate forestry activity. Height differences are small, up to 10m in one slope.

**KURESSAARE, PIDULA, LEEDRI**

### Sprint relay:

The competition area is in a small village typical to Saaremaa. There are a lot of stone fences and streets between them. Various farmyards are also used with many small details. Surrounding the village are mostly open fields with some small thickets.

## PUNCHING:

SportIdent system is used with enabled touch free system (SI Air+)
